Project Milestone – 1

Group Name: Data Crunchers

Group Size : 2

Member 1 : Ashish Jain (ashishjain@cs.umass.edu)
Member 2 : Vijay Pasikanti (vijaykp@cs.umass.edu)

Topic Descriptions:

1. Complex query performance comparison between graph and relational database using social network data or online reviews data.

2. Empirical comparison of Clustering algorithms on large social or information networks using graph databases.

3. Scalability and performance comparison between two graph databases using shortest path, reachability and pattern matching queries.
